Shrewsbury, Massachusetts 01545-5398

### Minutes Board of Sewer Commissioners

Date: May 4, 2004

**Present:** Joseph Zecco, Chairman  
Paul Swydan, Secretary  
Paul Burnett  
Jack Perreault, Town Engineer  
Robert Tozeski, Superintendent Water & Sewer

The minutes of the meeting of April 13<sup>th</sup> were accepted as written with the following changes. In section one, in the last paragraph last sentence, strike the wording adjacent property and put in its place the wording "any development on Hartford Turnpike that would require the sewer to be extended in a westerly direction." In section three, change Kalamat Farm Road to Kalamat Farm Circle and change Lantern Lane to North and High Sts.

1. The Board signed sewer assessments for a section of Walnut Street.
2. The Board was updated on the Brook St. sewer line extension. Work has started on the sewer line extension for Mr. Peris's two house lots. Five foot diameter manholes are being installed in place of the usual four foot diameter manholes because of the depth of the sewer. Also concrete chimney structures are being used for the service connections. The line will be left deep enough to pick up future gravity connections.

The Board was also updated that David Parmenter was working on plans to extend the gravity sewer line on the lower end of Prospect St. This would take a series of homes from the Cranbrook and Heatherwood areas and redirect the flow to the Reservoir St. Station from the Hill St. Station. This would also eliminate the easement line running through the Suasco watershed, a possible source of infiltration and inflow in high groundwater conditions. All this work is to be performed as part of the Hill St. Station improvement and infiltration & inflow removal requirements for the proposed Summit Ridge subdivision. Work is tentatively scheduled to begin in the mid to late summer period.

3. The Board discussed reviewing the present sewer permit fees at the next meeting in June.

The meeting was adjourned at 8:00 p.m.

Respectfully submitted,

Robert Tozeski  
Superintendent Water & Sewer
